

A close-up photograph of horizontal siding on a building. The siding has a distinct, wavy, textured surface. The color is a muted, earthy brown. The perspective is from a low angle, looking up and slightly to the right. On the right side, a vertical black metal pipe or vent is visible, extending from the top to the bottom of the frame. In the background, to the right, there is a blurred view of a window with yellow light and some green foliage.

Is it
Steel?
